Chapter 1	General introduction and outline of the thesis <i>J. of Parenteral and Enteral Nutrition 2008;32(6):613-621.</i> <i>Annual Review of Nutrition 2006;26:203-228.</i>	9	1
Chapter 2	Low plasma concentrations of arginine and asymmetric dimethylarginine in premature infants with Necrotizing Enterocolitis (NEC) <i>British Journal of Nutrition 2007;97(5):906-911.</i>	19	2
Chapter 3	Plasma ADMA concentrations at birth and mechanical ventilation in preterm infants: a prospective pilot study <i>Pediatric Pulmonology 2008;43(12):1161-1166.</i>	33	3
Chapter 4	Low arginine/ADMA ratio deteriorates systemic hemodynamics and organ blood flow in a rat model <i>Critical Care Medicine 2009;37(6):2010-2017.</i>	47	4
Chapter 5	Modulation of regional nitric oxide metabolism: Blood glucose control or insulin? <i>Intensive Care Medicine 2008;34(8):1525-1533.</i>	67	5
Chapter 6	Glycemic control modulates arginine and asymmetrical dimethylarginine levels during critical illness by preserving dimethylarginine-dimethylaminohydrolase activity <i>Endocrinology 2008;149(6):3148-3157.</i>	83	6
Chapter 7	The effect of rosiglitazone on asymmetric dimethylarginine (ADMA) in critically ill patients <i>Pharmacological Research 2009;60(6):519-524.</i>	105	7
Chapter 8	Summary, conclusions and future perspectives	121	8
Chapter 9	Nederlandse samenvatting en conclusies Dankwoord Curriculum Vitae List of publications	131	9
