Nederlandse samenvatting	7
Summary	9
Section 1: Introduction	13
Chapter 1: Background and rationale	15
Section 2: Methodology and datasets	19
Chapter 2: Methodology and modelling procedures	21
Chapter 3: Datasets	33
Chapter 4: Developmental trajectories of body mass index throughout the life course: An application of latent class growth (mixture) modelling	37
Section 3: Applications on longitudinal data	53
Chapter 5: Effects of long-term developmental patterns of body weight on levels of C-reactive protein and fibrinogen among North-American men and women: The Spokane Heart Study	55
Chapter 6: Vital exhaustion and markers of low-grade inflammation in healthy adults: The Amsterdam Growth and Health Longitudinal Study	75
Chapter 7: Progression and regression: Distinct developmental patterns of diabetic retinopathy in patients with type 2 diabetes treated in the Diabetes Care System West-Friesland, the Netherlands	93
Section 4: Applications on cross-sectional data	109
Chapter 8: Type 2 diabetics in primary care: Profiles of healthcare utilisation obtained from observational data	111
Chapter 9: Heterogeneity in colorectal cancer symptom presentation general practice: A longitudinal observational study	131
Section 5: Review and discussion	143
Chapter 10: Review and discussion	145
