

Table of Contents

CHAPTER 1	General Introduction	9
CHAPTER 2	Signal Regulatory Protein- α signaling is essential for splenic CD8 ⁻ dendritic cell migration and homeostasis	39
CHAPTER 3	CD8 ⁻ dendritic cells preferentially cross-present <i>S. cerevisiae</i> antigens	65
CHAPTER 4	NADPH oxidase-derived reactive oxygen species enhance antigen-presentation of dendritic cells	91
CHAPTER 5	Effective collaboration between marginal metallophilic macrophages and CD8 ⁺ dendritic cells in the induction of cytotoxic T cells	111
	Addendum	135
	Supplementary Figures	139
CHAPTER 6	General Discussion	145
CHAPTER 7	Dutch Summary - Algemene samenvatting voor niet ingewijden	165
	Acknowledgements - Dankwoord	171
	Curriculum vitae	175
