

CONTENTS

Chapter 1	General introduction	9
Chapter 2	Pathological differences between white matter and grey matter multiple sclerosis lesions	27
Chapter 3	Interleukin-1 β and interleukin-1 receptor antagonist appear in grey matter additionally to white matter lesions during experimental multiple sclerosis	43
Chapter 4	Discrepancy in CCL2 and CCR2 expression in white versus grey matter hippocampal lesions of multiple sclerosis patients	65
Chapter 5	Cholinergic imbalance in the multiple sclerosis hippocampus	91
Chapter 6	Enhanced gaba-ergic immunoreactivity in hippocampal neurons and astroglia of multiple sclerosis patients	107
Chapter 7	Summary and general discussion	125
Chapter 8	References	147
Appendices	Nederlandse samenvatting	179
	Dankwoord	184
	List of publications	189
	About the author	191
