

Table of Contents

Chapter 1	General introduction
Chapter 2	Endovascular grafting of complex aortic aneurysms with a modular side branch stent-graft system in a porcine model. <i>European Journal of Vascular and Endovascular Surgery 2004 27: 492-7</i>
Chapter 3	Modular branched endograft system for aortic aneurysm repair: evaluation in a human cadaver circulation model. <i>Vascular and Endovascular Surgery. 2007 41: 126-9</i>
Chapter 4	Direct videoscopic approach to the descending thoracic aorta for aortic arch endograft delivery: evaluation in a porcine model. <i>Journal of Endovascular Therapy 2007 14: 39-43</i>
Chapter 5	Fenestrated and branched endografts: assessment of proximal aortic neck fixation. <i>Journal of Endovascular Therapy 2005 12: 647-653</i>
Chapter 6	Endoscopic Type 2 Endoleak Repair Following Endovascular Aortic Aneurysm Repair: acute results and follow-up experience <i>Vascular 2011 19: 121-5</i>
Chapter 7	Pararenal aortic aneurysm repair using fenestrated endografts <i>Journal Vascular Surgery 2012: in press</i>
Chapter 8	Summary and conclusions
Chapter 9	Samenvatting en conclusies
Chapter 10	Appendices
	List of publications
