

## CONTENTS

### **Module 1 A network perspective on dementia: why?**

Node 1 Introduction, aims and outline 7

### **Module 2 Alzheimer's disease disturbs local brain dynamics**

Node 2 Resting-state oscillatory brain dynamics in Alzheimer's disease 19  
*J Clin Neurophysiol 2008*

### **Module 3 Alzheimer's disease disturbs global brain dynamics**

Node 3 Functional neural network analysis in fronto-temporal dementia 35  
and Alzheimer's disease using EEG and graph theory  
*BMC Neuroscience 2009*

Node 4 Graph theoretical analysis of magneto-encephalographic functional 57  
connectivity in Alzheimer's disease *Brain 2009*

Node 5 Disrupted modular brain dynamics reflect cognitive dysfunction in 81  
Alzheimer's disease *NeuroImage 2012*

### **Module 4 The graph spectrum**

Node 6 Disruption of functional brain networks in Alzheimer's disease: what 103  
can we learn from graph spectral analysis of resting-state MEG?  
*Brain connectivity 2012*

### **Module 5 Modeling neural network degeneration**

Node 7 Activity dependent degeneration explains hub vulnerability in 123  
Alzheimer's disease *PLoS Computational Biology 2012*

### **Module 6 Alzheimer's disease as system failure**

Node 8 Functional network disruption in the degenerative dementias 161  
*Lancet Neurology 2011*

Node 9 Summary 189

Node 10 General discussion 193

**Nederlandse samenvatting** 220

**Dankwoord** 224

**VU University Alzheimer Center Dissertations** 227

**List of publications & About the author** 228
