

# CONTENTS

<b>Chapter 1</b>	
General Introduction and Aims and Outlines of the thesis.	Page 9
<b>Chapter 2</b>	
Translating the A <sub>1c</sub> Assay into estimated Average Glucose Values.	page 49
<b>Chapter 3</b>	
Does Glucose Variability Influence the Relationship Between Mean Plasma Glucose and HbA <sub>1c</sub> Levels in type 1 and type 2 diabetic patients?	page 69
<b>Chapter 4</b>	
Do factors other than blood glucose concentrations determine HbA <sub>1c</sub> ?	page 85
<b>Chapter 5</b>	
1,5 AnhydroGlucitol Concentrations and measures of glucose control and variability in patients with type 1 and type 2 diabetes mellitus.	page 103
<b>Chapter 6</b>	
Associations between features of glucose exposure and A <sub>1c</sub> .	page 123
<b>Chapter 7</b>	
Real life glycemic profiles in non-diabetic individuals with low fasting glucose and normal HbA <sub>1c</sub> .	page 143
<b>Chapter 8</b>	
HbA <sub>1c</sub> and mean blood glucose show stronger associations with cardiovascular disease risk factors than do postprandial glycemia or glucose variability in persons with diabetes.	page 153
<b>Chapter 9</b>	
General Discussion	page 175
<b>Chapter 10</b>	
Samenvatting en toekomstperspectief	page 215
Publications & co-author affiliations	page 248
Dankwoord & Curriculum Vitae	page 254
Abbreviations	page 263
