

# Sustainable Employability of Construction Workers

KAREN M. OUDE HENGEL

The study presented in this thesis was performed at the Netherlands Organisation for Applied Scientific Research TNO, Hoofddorp, the Netherlands. TNO participates in Body@Work, Research Center on Physical Activity, Work and Health, which is a joint initiative of VU University Medical Center (Department of Public and Occupational Health, EMGO Institute for Health and Care Research), VU University Amsterdam, and TNO.

The study was funded by the Netherlands Organisation for Health Research Development (ZonMw), project 12051.0004.

Financial support for the printing of this thesis has kindly been provided by Body@Work, Research Center on Physical Activity, Work and Health, the Netherlands Organisation for Applied Scientific Research TNO, Work Solutions, the EMGO+ Institute for Health and Care Research, and the VU university.
