

## CONTENTS

<b>Chapter 1</b>	General introduction and outline	9
<b>Chapter 2</b>	Longitudinal imaging of Alzheimer pathology	19
<b>2.1</b>	Longitudinal amyloid imaging using [ <sup>11</sup> C]PIB: Methodological considerations	20
<b>2.2</b>	Longitudinal imaging of Alzheimer pathology using [ <sup>11</sup> C]PIB, [ <sup>18</sup> F]FDDNP and [ <sup>18</sup> F]FDG PET	38
<b>Chapter 3</b>	Molecular imaging in cognitively normal elderly	59
	Is verbal episodic memory in elderly with amyloid deposits preserved through altered neuronal function?	
<b>Chapter 4</b>	Molecular imaging in AD: mechanisms underlying clinical heterogeneity	81
<b>4.1</b>	Amyloid burden and metabolic function in early-onset Alzheimer's disease: parietal lobe involvement	82
<b>4.2</b>	Differential effect of APOE genotype on amyloid load and glucose metabolism in AD dementia	106
<b>Chapter 5</b>	Clinical application of molecular imaging	123
<b>5.1</b>	Impact of molecular on the diagnostic process in a memory clinic	124
<b>5.2</b>	Amyloid imaging in prodromal Alzheimer's disease	142
<b>Chapter 6</b>	General discussion, summary & future perspectives	149
<b>Addendum</b>	Nederlandse samenvatting List of publications Alzheimer center hall of fame Curriculum vitae Dankwoord	163
