

I want to thank all of those who have helped me one way or another during my PhD project. This PhD journey included not only doing research but also moving to another country, getting used to the Dutch weather and getting married. There are some people that deserve special thanks.

First of all, this amazing journey would never have finished successfully without the enthusiasm and encouragement from my supervisors Hans, Willem, and co-supervisors Mai and Saskia. Thanks a lot for your trust, support and guidance during my PhD project.

Hans, I saw you for the first time at the ISBNPA conference in 2005, as usual it was inspiring listening to you. You are definitely an extraordinary researcher who has always inspired and motivated me. **Willem**, you are a wealth of experience. Even though we did not have a lot of meetings, you were always the last eye who read the papers before the submissions.

Mai and **Saskia**, these words will not be enough to show my gratitude for having you as day-to-day supervisors, but let's give it a try. Thank you for being patient with me, reading the hundreds of drafts and teaching me about the ways of science. Working with you prepared me enormously for future endeavors! Mai you are an exceptional person for me. You involved me in many different tasks and papers, which enriched me a lot. To show my gratefulness, I can drink the whole day your sterrenmunt tea :)! Special thanks to **Maartje** for her critiques of the papers in this thesis. They indeed lifted up the papers to the next level. You are the most hard-working researcher I have met. Learning mediation analysis for me started with you in Berlin 2009. Your hard work and dedication inspired me every day. The analyses that I have done could not be that good without your touch!

The members of the reading committee, Prof. dr. **Jo Salmon**, Prof. dr. **Hein Raat**, Prof. dr. **Jos Twisk**, Prof. dr. **Greet Cardon**, Dr. **Hidde van der Ploeg** and Dr. **Tanja Vrijkkotte**: thank you for your time and effort to review my thesis, and for your presence at the defense ceremony.

Additional thanks to all the **ENERGY project researchers**. The project coordinator **Amika Singh**, such a happy person who was born with leadership skills; thanks for sharing an apartment in Austin, a running experience, nice time in Istanbul, Turkish dinner and WholeFoods market visits! **Maite** and **Wendy**, it was so nice seeing you at the ENERGY meetings and experiencing together nerve breaking moments at ISBNPAs just before our presentations.

My Turkish colleagues **Gamze** and **Eda**, thank you for visiting our institute and working on the collaborative paper. *Gamze abla ve Eda abla, sabırla makaleyi yeniden ve yeniden yazdığınız, ve burda Türkiye'yi temsilen çok güzel sunumlar yaptığınız için binlerce teşekkürler.*

A special thanks to **Jo Salmon** who provided me the opportunity to visit C-PAN, at Deakin University in Melbourne. I feel so lucky to meet and get the chance to work with you. Other C-PAN colleagues **David, Anna, Nicky, Lauren, Adrian, Alison, Helen, Jenny, Lukar, Sandrine and Marita** thanks for your collaboration and making my stay very pleasant. **Ester**, it was such a nice coincidence to meet you there, thanks for your guidance on the paper. **Sinem**, finding a Turkish colleague at C-PAN was indeed a big surprise, thank you and your family for everything. **Wei**, it was great to have a lunch walk with you and **Rani** without you I would not see that much of Melbourne city. Thanks!

Meeting and working with the mediation guru **Prof. David MacKinnon** was a fascinating experience. Thank you **David** and also **Linda** for hosting me at Arizona State University, giving guidance on the DOiT paper, showing me the bunch of cactuses, treating me with an American breakfast, XL soft drinks and pizzas :). **Milica**, you were my lifesaver at Tempe, thank you for your help and friendship, it was so lovely to meet up in Turkey.

We were such a special LCD group, thank you for making it so unforgettable.
