

## Contents

Chapter 1	General introduction	9
<b>Section 1 <i>Bone mineral density and vertebral fractures</i></b>		
Chapter 2	High prevalence of low bone mineral density in patients within 10 years of onset of Ankylosing spondylitis: a systemic review	29
Chapter 3	Low bone mineral density is related to male gender and decreased functional capacity in early Spondylarthropathies	47
Chapter 4	High frequency of vertebral fractures in early Spondylarthropathies	61
Chapter 5	Etanercept increases bone mineral density in Ankylosing spondylitis, but does not prevent vertebral fractures	79
<b>Section 2 <i>Imaging</i></b>		
Chapter 6	Bone formation rather than inflammation reflects Ankylosing spondylitis activity on PET-CT: a pilot study	99
<b>Section 3 <i>Work participation</i></b>		
Chapter 7	Problems in work participation and resource utilisation should not be underestimated in patients with an early SpA	121
Chapter 8	Summary and general discussion	141
Chapter 9	Nederlandse samenvatting	157
	Dankwoord	173
	Curriculum Vitae	179
	Publications	183
	Addendum	187
	List of questionnaires	188
	List of abbreviations	193
