

Table of contents

	List of abbreviations	9
Chapter 1	General introduction	11
Chapter 2	Reactive oxygen species alter brain endothelial tight junction dynamics via RhoA, PI3 kinase and PKB signaling. <i>The FASEB Journal 2007; 21(13): 3666-3676</i>	27
Chapter 3	Diapedesis of monocytes is associated with MMP-mediated occludin disappearance from brain endothelial cells. <i>The FASEB Journal 2006; 20(14): 2550-2552</i>	51
Chapter 4	T lymphocytes impair P-glycoprotein function during neuroinflammation <i>Submitted for publication</i>	71
Chapter 5	ABC transporters are involved in multiple sclerosis pathology <i>Submitted for publication</i>	95
Chapter 6	P-glycoprotein acts as an immunomodulator during neuroinflammation <i>Submitted for publication</i>	117
Chapter 7	Summarizing discussion	137
	Nederlandse samenvatting	155
	Dankwoord	161
	Curriculum Vitae	165
	List of publications	167
