

HAND AND WRIST PROBLEMS
IN GENERAL PRACTICE:
DIAGNOSIS AND PROGNOSIS

The study presented in this thesis was conducted at the EMGO⁺ Institute for Health and Care Research (www.emgo.nl) and the Department of General Practice of the VU University medical centre. The EMGO⁺ Institute participates in the Netherlands School of Primary Care Research (CaRe) which was re-acknowledged in 2005 by the Royal Netherlands Academy of Arts and Sciences (KNAW).

Financial support for the printing of this thesis has kindly been provided by The Netherlands Organisation for Health Research and Development (ZonMw), the EMGO⁺ Institute, and the VU University.
