5	General introduction	7
6		
7	First part	
8	Transpulmonary thermodilution	
9		
9	Chapter 2	
10	Clinical value of intrathoracic volumes from transpulmonary indicator dilution.	19
11	Pinsky MR, Payen D, eds. Update in Intensive Care and Emergency Medicine.	
12	Functional Hemodynamic Monitoring. Springer Verlag, Berlin 2004; pp 153-163	
13		
14	Chapter 3	
15	Pulmonary artery thermodilution cardiac output vs transpulmonary	35
16	thermodilution cardiac output in two patients with intrathoracic pathology.	
17	Acta Anaesthesiol Scand 2004; 48: 658-661	
18		
18	Chapter 4	
19	Assessing fluid responses after coronary surgery: role of mathematical coupling	45
20	of global end-diastolic volume to cardiac output measured by transpulmonary	
21	thermodilution.	
22	Eur J Anaesthesiol 2009; 26: 954-960	
23		
24	Chapter 5	
25	Transpulmonary versus continuous thermodilution cardiac output after valvular	59
26	and coronary artery surgery.	
27	Interact CardioVasc Thorac Surg 2009; 9: 4-8	
28		
28	Chapter 6	
29	Relative value of pressure and volumes in assessing fluid responsiveness after	69
30	valvular and coronary artery surgery.	
31	Eur J Cardiothorac Surg 2009; 35: 62-68	
32		
33	Chapter 7	
34	Cardiac filling volumes and pressures in assessing preload responsiveness upon	85
35	fluid challenges.

1	Second part	
2	Pulse-contour	
3	Chapter 8	
4	Less invasive indicators of changes in thermodilution cardiac output by	101
5	ventilator changes after cardiac surgery.	
6	Eur J Anesthesiol. 2009; 26: 863-867	
7		
8	Chapter 9	
9	Cardiac output measured by a new arterial pressure waveform analysis method	113
10	without calibration compared with thermodilution after cardiac surgery.	
11	J Cardiothorac Vasc Anesth 2007; 21: 632-635	
12	Chapter 10	
13	General discussion and summary	125
