

## Contents

Chapter 1	9
Introduction	
Adapted from: Long-term effects of neonatal glutamine-enriched nutrition in very low birth weight infants. <i>Submitted</i>	
Chapter 2	17
Glutamine-enriched enteral nutrition in VLBW infants: effect on the incidence of allergic and infectious diseases in the first year of life. <i>Arch Pediatr Adolesc Med</i> 2007;161:1095-1101.	
Chapter 3	27
Glutamine-enriched enteral nutrition in very low birth weight infants and allergic and infectious diseases at six years of age. <i>Submitted</i>	
Chapter 4	37
4-I Cytokine responses in very low birth weight infants receiving glutamine-enriched enteral nutrition. <i>J Pediatr Gastroenterol Nutr</i> 2009;48:94-101.	
4-II Cytokine profiles in one year old very low birth weight infants after enteral glutamine supplementation in the neonatal period. <i>Pediatr Allergy Immunol</i> 2009;20:467-470.	51
Chapter 5	59
Intestinal microbiota in allergic and non-allergic one year old very low birth weight infants after neonatal glutamine supplementation. <i>Accepted for publication in Acta Paediatrica</i>	
Chapter 6	71
Neurodevelopmental outcomes of very low birth weight infants after enteral glutamine supplementation in the neonatal period. <i>Acta Paediatrica</i> 2008;97:562-567.	
Chapter 7	81
General discussion	
Chapter 8	97
8-I Summary	
8-II Samenvatting	103
