

Table of contents

Chapter 1	Page 9
Introduction	
Aims and outline of this thesis	
Chapter 2	Page 35
Proper genomic profiling of (<i>BRCA1</i> -mutated) basal-like breast carcinomas requires prior removal of tumour infiltrating lymphocytes	
Chapter 3	Page 71
Genomic profiling of <i>CHEK2</i> *1100delC-mutated breast carcinomas	
Chapter 4	Page 91
Prognostic value of a mRNA immune infiltrate signature on histopathological breast cancer subtypes of lymph node-negative primary operable breast cancer	
Chapter 5	Page 109
Whole exome sequencing of germline DNA from familial non- <i>BRCA1/2</i> breast cancer cases with a homogeneous tumour profile	
Chapter 6	Page 125
Discussion	
Chapter 7	Page 137
Summary /Samenvatting	
Addendum	Page 145
