

# Contents

CHAPTER 1	7
<i>General introduction</i>	
CHAPTER 2	31
<i>A protein prioritization approach tailored for the FA/BRCA pathway</i>	
CHAPTER 3	59
<i>A novel Fanconi anemia subtype associated with a dominant-negative mutation in RAD51</i>	
CHAPTER 4	81
<i>Coregulation of FANCA and BRCA1 in human cells</i>	
CHAPTER 5	113
<i>The role of Fanconi anemia proteins in transcriptional networks: evidence from literature</i>	
CHAPTER 6	143
<i>Deficiency of the centrosomal protein CEP170 is associated with microcephaly</i>	
CHAPTER 7	167
<i>General discussion: do Fanconi anemia proteins play a role in the cell cycle machinery?</i>
