

Table of contents

Samenvatting (Nederlands)	6
Summary (English)	8
Chapter 1: General Introduction: The epidemiology of microvascular function	13
Chapter 2: Cohort Profile: The Amsterdam Growth and Health Longitudinal Study	19
Chapter 3: Microvascular dysfunction: A potential mechanism in the pathogenesis of obesity-associated insulin resistance and hypertension	31
Chapter 4: The relationship of body fatness and body fat distribution with microvascular recruitment: The Amsterdam Growth and Health Longitudinal Study	51
Chapter 5: Adolescent predictors of life course trajectories of body fatness	65
Chapter 6: The relationship between 30-year developmental patterns of body fat and body fat distribution and vascular properties: The Amsterdam Growth and Health Longitudinal Study	77
Chapter 7: The relationship between body fatness, blood pressure and insulin resistance: a mediating role for microvascular function?	91
Chapter 8: Sleep quality and duration are related to microvascular function: The Amsterdam Growth and Health Longitudinal Study	103
Chapter 9: Discussion	113
