

# Evidence for physical therapy after stroke: prognosis and intervention

Evidence for physical therapy after stroke: prognosis and intervention | Janne M. Veerbeek

## inspired by motion

Freedom of movement in all its aspects determines quality of life – from cell to organ and from organ to the entire body. Our inspiration is substantiated through research into regenerative medicine, rehabilitation and sport.

**move** research  
institute  
amsterdam

founded by VU University Amsterdam, VU University Medical Center Amsterdam and the Academic Centre for Dentistry Amsterdam (ACTA)
