

## CONTENTS

Chapter 1	General introduction	7
Chapter 2	Early neurite outgrowth in release-deficient neurons	31
Chapter 3	Effect of glutamate auto-feedback on neurite outgrowth in development	49
Chapter 4	Automated quantification of cellular traffic in living cells	67
Chapter 5	Transport and fusion of Corticotropin Releasing Factor Binding Protein is distinct from previously described dense core vesicle cargoes	83
Chapter 6	Optical tools for studying vesicle dynamics	105
Chapter 7	Conclusions	123
Appendix A	Mathematical framework for a recursive bayesian estimation algorithm	137
Appendix B	Nederlandse samenvatting	153
Appendix C	Dankwoord	159
	Curriculum Vitae	161
