Chapter 1	General introduction and outline of the thesis	9
Chapter 2	Validated sandwich ELISA for the quantification of tissue Transglutaminase in tissue homogenates and cell lysates of multiple species <i>Journal of Immunological Methods</i> (2008); 332(1-2):142-50	33
Chapter 3	Local tissue Transglutaminase activity directs experimental Multiple Sclerosis pathology <i>Submitted for publication</i>	45
Chapter 4	Appearance of tissue Transglutaminase in astrocytes in Multiple Sclerosis lesions: a role in cell adhesion and migration? <i>Brain Pathology</i> (2010), <i>in press</i>	67
Chapter 5	Astrocyte-derived tissue Transglutaminase interacts with fibronectin: a role in glia adhesion and migration? <i>Manuscript in preparation</i>	85
Chapter 6	Tissue Transglutaminase activity is involved in the differentiation of oligodendrocyte precursor cells into myelin-forming oligodendrocytes during CNS (re)myelination <i>Submitted for publication</i>	105
Chapter 7	Summarizing discussion	125
8	References	139
9	Samenvatting	155
10	List of publications & Curriculum vitae	161
11	Dankwoord	165
