

# Empowerment of Disability Benefit Claimants prior to their disability assessment

David Samoocha

The study presented in this thesis was conducted at the EMGO+ Institute for Health and Care Research, Department of Public and Occupational Health of the VU University Medical Center. The EMGO+ Institute participates in Body@Work, Research Center on Physical Activity, Work and Health, which is a joint initiative of VU University Medical Center (Department of Public and Occupational Health, EMGO+ Institute for Health and Care Research), VU University Amsterdam, and TNO Quality of Life. The EMGO+ Institute participates in the Netherlands School of Primary Care Research (CaRe) which was re-acknowledged in 2005 by the Royal Netherlands Academy of Arts and Sciences (KNAW).

This study was funded by Foundation Institute GAK (SIG).

Financial support for the printing of this thesis has been kindly provided by Body@Work Research Center on Physical Activity, Work and Health, and the Occupational Health and Environmental Services of the VU University, VU Medical Center, and Elevate LF8 Internet.
