

Ambulatory movement analysis systems in clinical motor function assessment

*Applications of inertial sensors
and an instrumented force shoe*

Josien (J.C.) van den Noort

The work presented in this thesis was carried out at the Department of Rehabilitation Medicine, Research Institute MOVE, VU University Medical Center Amsterdam, the Netherlands.

The research was funded by the Dutch Ministry of Economic Affairs and Senter Novem (the FreeMotion project).

Financial support for the printing of this thesis has been kindly provided by Xsens Technologies B.V., Annafonds|NOREF and Northern Digital Inc.

VRIJE UNIVERSITEIT

Ambulatory movement analysis systems in clinical motor function assessment

**Applications of inertial sensors
and an instrumented force shoe**

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad Doctor aan
de Vrije Universiteit Amsterdam,
op gezag van de rector magnificus
prof.dr. L.M. Bouter,
in het openbaar te verdedigen
ten overstaan van de promotiecommissie
van de faculteit der Geneeskunde
op donderdag 27 oktober 2011 om 13.45 uur
in de aula van de universiteit,
De Boelelaan 1105

door

Johanna Clasina van den Noort
geboren te Almelo

promotor: prof.dr. G.J. Lankhorst
copromotor: dr.ir. J. Harlaar

Contents

Chapter 1	General Introduction	9
Chapter 2	Evaluation of clinical spasticity assessment in cerebral palsy using inertial sensors	31
Chapter 3	Evaluation of the catch in spasticity assessment in children with cerebral palsy	47
Chapter 4	Gait analysis in children with cerebral palsy via inertial and magnetic sensors: a validation study	71
Chapter 5	Influence of the instrumented force shoe on gait pattern in patients with osteoarthritis of the knee	87
Chapter 6	The knee adduction moment measured with an instrumented force shoe in patients with osteoarthritis of the knee	111
Chapter 7	Ambulatory measurement of the knee adduction moment in patients with osteoarthritis of the knee	133
Chapter 8	The effectiveness of voluntary modifications of gait pattern to reduce the knee adduction moment	151
Chapter 9	General Discussion	173
Summary		199
Samenvatting		205
