

Annicka van der Plas
Research Associate
Public and occupational health
APH - Aging & Later Life
APH - Quality of Care
CCA - Treatment and quality of life

After graduation from Radboud University in Nijmegen in 1999, I started working as a research-psychologist in the field of addiction and mental health. In 2015 I defended my PhD thesis at the VUmc on evaluation of case managers in palliative care. Currently I work at Amsterdam UMC as Coordinator of the Expertise Center for Palliative Care and as a postdoctoral researcher on several projects, focussing on primary palliative care.
